About me

Full-stack developer with development experience using tools such as:
Python, Django framework, Javascript, VueJS framework, HTML, CSS,
MySQL, Git. I get great pleasure from writing code and developing
projects.

Skills

My hard skills: development on Python/Django, HTML, CSS,
JavaScript/Vue.js, MySQL, Git. I Also type very fast on the keyboard.

My soft skills: friendliness in communication, non-conflict, the ability to
listen, empathy, the ability to communicate with different types of
people, hard work, perseverance, involvement, love for programming and
the IT world.

Work experience

I have no commercial work experience, but I have a portfolio and
personally developed web applications.
